GRAN SAPORE

GRAN SAPORE

GOOD
ON YOUR SALAD
BUT ON YOUR SINK,
TOO.

You may not know it, but recent studies have confirmed the disinfectant properties of vinegar. Indeed, vinegar has the capacity to eliminate various mycobacteria found in every corner of your home, starting with the bathroom fixtures. But is not only that. In addition to cleaning and disinfecting your house and the objects you use every day, vinegar also keeps the world around you clean, as it is neither toxic nor corrosive. It also costs less than normal household products. Vinegar: an intelligent, safe and ideal choice for our times.
